Departments

- **Streets.** Please clear debris from the sides of the roads to allow for summer maintenance.
- **Water** – Protect our water system. Do you know putting a hose in a pool and then shutting it off without taking it out of the pool can contaminate drinking water? Planning on putting in a sprinkler system? Doing outside watering? Visit our website www.willardcity.com for valuable information on how to avoid cross connection and for important backflow prevention information. Help protect our water. Check out the Division of Water Resources website for great information on water conservation <https://conservewater.utah.gov/>
- **Sewer-** Property owners are responsible for the sewer line from your home to the main line. Make sure sewer cleanouts are cut off at ground level and capped or protected to avoid debris from causing costly back-ups into your house and breaking off.
